## Atmospheric Vent Backflow Preventers

Plumbing codes vary from state to state. Although a Wilkins backflow preventer is automatically installed with the Fill-Flush and Simple Touch Cleaning Systems, some states require that an additional atmospheric vent backflow prevention device be installed above the water line for MTI cleaning systems. Check the requirements of local plumbing codes in your area. If this applies to your area, there are several choices. GPM (Gallons Per Minute) ratings at 45 PSI for the various valves are shown below.

### In-Wall Atmospheric Vent

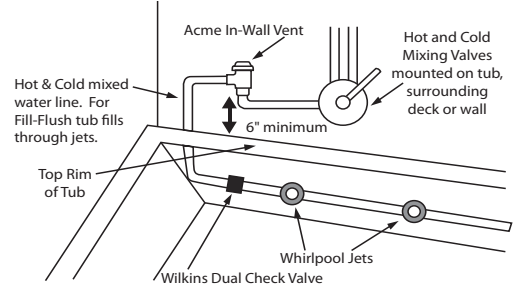

MTI offers an in-wall solution to enable you to comply with local codes, if applicable. This in-wall unit is subject to normal maintenance and therefore must be installed in such a way that it will be **accessible after the tub installation is complete**. Since, under back-siphonage conditions, small amounts of water may be spilled through the air port, this Atmospheric Vent must be located and installed in such a way that this water will be captured and contained.

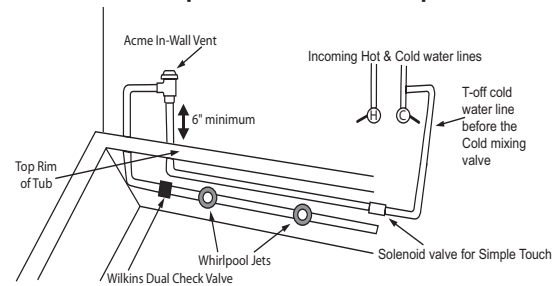

17 GPM

In-Wall Atmospheric Vent (IWAV)	\$72
---------------------------------	------

### In-Wall Atmospheric Vent with Fill-Flush®

### In-Wall Atmospheric Vent with Simple Touch®

## Deck-Mounted Breda Valve Atmospheric Vent

This is an atmospheric vent backflow prevention device that is deck-mounted. It is available in 2 forms in various finishes.

### • Atmospheric Vent

For Gentle Ped. 10 GPM

For tubs. 17 GPM

Atmospheric Vent		
Chrome	(BREDAAV)	\$253
Brushed Nickel	(BREDABNV)	\$280
Brass	(BREDABRV)	\$280
Oil Rubbed Bronze†	(BREDAORV)	\$358
Polished Nickel	(BREDAPNV)	\$358
Special Finishes	(BREDASFV)	\$403

### • Atmospheric Vent with Diverter:

This Breda is used with Fill-Flush when an additional filling device is desired such as a hand-held shower, overhead shower or any other **single** device. In this application, the handle is turned to divert water from filling the bath through the jets to another device.

For tubs. 10 GPM

Atmospheric Vent/Diverter Combo		
Chrome	(BREDAD)	\$325
Brushed Nickel	(BREDABND)	\$358
Brass	(BREDABRD)	\$358
Oil Rubbed Bronze†	(BREDAORD)	\$358
Polished Nickel	(BREDAPND)	\$358
Special Finishes	(BREDASFD)	\$482

## IAPMO Listing for the Fill-Flush and Simple Touch Cleaning Systems

Some state and city plumbing codes require that the Fill-Flush Cleaning System be installed with an atmospheric vent backflow prevention device. If ordering a bath equipped with the Breda Valve, please specify deck mount location. **It is the responsibility of purchasers to check code requirements in their areas before ordering any MTI whirlpools.** Your MTI dealer should be knowledgeable on local plumbing code requirements. The Fill-Flush Cleaning System with the Breda Valve (an additional cost) is IAPMO listed and must be installed on residential units in the following areas as well as on ALL commercial units: \*Tucson, AZ \*California \*Dade & Broward Counties & Orlando, FL \*Illinois \*Des Moines, IA \*Massachusetts \*Michigan \*Minnesota \*St. Louis County, MO \*New Jersey \*New York \*Corpus Christi & Beaumont, TX \*Wisconsin \*Washington \*Oregon \*Colorado \*Nevada

†Oil Rubbed Bronze finishes vary from manufacturer to manufacturer. MTI has selected a finish that is compatible with many available. If an exact match is desired, submit a sample and MTI will match it. Special Finishes upcharge will apply.
