*The Marilyn - one tub, two looks.*

## FOR IMMEDIATE RELEASE:

# AT HOME IN MODERN OR TRADITIONAL DECORS!

## The Marilyn Is Freestanding Bathing At Its Best!

(Atlanta, GA – April 17, 2009) MTI Whirlpools' new Marilyn transitional-design freestanding tub is a harmonic blend of styles that can be adapted to an individual's preference. The Marilyn tub walks the line between traditional and contemporary, with an optional base to create a more traditional look or without a base for contemporary decors.

The freestanding Marilyn tub is designed with gently curved sides, adjoining concave lines and an assertive, yet slim shape. Available as a soaker or with the comfortable luxury of an MTI thermo-air massage system, the Marilyn bathtub is available with either System Aria or Aria Elite, each of which produces millions of tiny air bubbles to relax and replenish the body. As warmed air bubbles rise from the bottom of the bath, they cling to the skin and open the pores, drawing the capillaries to the surface and thereby increasing blood circulation. The air flow rate is adjustable from gentle to vigorous to a pulsating wave effect.

Further enhancing the bathing experience, the Marilyn can be ordered with MTI's patent-pending Radiance® heating system, that warms the bath shell for increased comfort and relaxation. You can also add the therapeutic effects of chromatherapy, provided by underwater LED lighting, for a more complete, engaging, holistic experience.

Constructed of durable high-gloss cross-linked cast acrylic, the Marilyn (MTDS-136) measures 65.5" x 35.625" x 23.5". Without the base it retails for \$3,905 as a soaker; \$5,964 with the System Aria air bath package; and \$7,208 with the Aria Elite upgraded air bath package. With the optional base it retails for \$4,904 as a soaker; \$6,963 with the System Aria air bath package; and \$8,207 with the Aria Elite upgraded air bath package.

Since 1988, MTI Whirlpools has earned a reputation for impeccable quality, innovation and unique customizations for its expansive line of bath products. MTI's Designer and Classic Series include over 100 bath models, most of which can be specified as a soaker, air bath, whirlpool or combination whirlpool / air bath. Manufactured in high-quality Lucite® cross-linked cast acrylic, there is a wide variety of shapes and sizes from which to choose, complemented by a huge range of options and accessories. MTI also offers durable acrylic shower bases, frameless glass enclosures, bath furniture and specialty products, such as the Jentle Jet® laundry sink. MTI's Boutique Collection of design-savvy solid-surface tubs, lavatory sinks and shower bases presents a rich resource for those looking for bath products in alternative materials.

Located near Atlanta, the employee-owned company offers products through an exclusive network of kitchen and bath showrooms throughout the country. The company is gaining national recognition for its ability to provide products that are both innovative and classic.
